Claim Rejections - 35 USC § 112

1. Claims 25-32 and 34-44 remain rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement.

Applicants argue that “single layer matrix” is disclosed in the specification since the as-filed specification does not disclose multi-layer matrix and, which by corollary implies that the matrix is a single layer, such that the skilled artisan.

While MPEP 2163 states in the relevant section that “the analysis of whether the specification complies with the written description requirement calls for the examiner to compare the scope of the claim with the scope of the description to determine whether applicant has demonstrated possession of the claimed invention. Such a review is conducted from the standpoint of one of skill in the art at the time the application was filed (see, e.g., *Wang Labs. v. Toshiba Corp.*, 993 F.2d 858, 865, 26 USPQ2d 1767, 1774 (Fed. Cir. 1993)), and while applicants say that page 6 and 7 of the as-filed specification refers to “a scaffold mad of a single-layer matrix, in the form of a perforated membrane or a non-woven tissue”, it is respectfully noted that Examiner cannot find the lines on the designated pages of the as-filed specification that refers to a single layer matrix. There is a general teaching of growing cells on scaffold

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action.
